PROFILE

A motivated fresh graduate in Information Systems from ITB STIKOM Bali with hands-on experience in full-stack web development. Proficient in building scalable, structured web applications using Laravel, React JS, and Docker. Proven ability to deliver real-world projects — from hospital management systems to booking platforms — with a strong focus on clean UI/UX and maintainable code architecture. Eager to contribute and grow within a dynamic development team.

EXPERIENCE

○ WEB DEVELOPER INTERN — RSU PRIMA MEDIKA BALI

Maret 2026 - Juli 2026

- ◆ Built a web-based Training & Education Management System (Sistem Diklat) as Final Project
- ◆ Implemented CQRS architecture using Laravel 13, Livewire 4, Tailwind CSS, and Alpine.js
- ◆ Managed Docker-based deployment and resolved production infrastructure issues
